

## 4 Day 'Air Tightness Testing' Certified Training Course

The 'Air Tightness Testing' Certified Training Course is run over 4 consecutive days at the Enterprise Centre in CloughJordan, Co. Tipperary and is run in conjunction with our accredited training partner, *Infrared Training Limited*.

The cost of this 4 day course is very competitively priced at €1,495 + VAT per person.

### Course Overview:

#### Aims and Objectives of Air Tightness Testing Training:

- ▶ Review Building Regulations in regard to Air Tightness Testing
- ▶ To understand why permeability testing is a requirement.
- ▶ To understand what air leakage is and how it is measured
- ▶ Who does this affect?
- ▶ What is required and how do you comply?
- ▶ Regulations for testing and reporting.
- ▶ Using ATT equipment, structure preparation and reporting results.

#### Assessment & Certification:

The exam is divided into 3 separate sections. All 3 must be successfully completed to pass.

- ▶ Open Book Theory
- ▶ Building Envelope and Volume Calculation
- ▶ Practical Exam

On successful completion of the exam you will be issued with "ATT" Training Cert.

### Course Content:

#### Our 4 Day 'Air Tightness Testing' Training Course is comprehensive and covers latest standards.

Due to changes in the field of Air Tightness Testing and the introduction of new competency schemes, our course structure has been updated to reflect the new National Occupational Standards (NOS).

The first three days of the course will cover NOS ASTATT 1 to 9 documents, and the Minimal Technical Competence (MTC) for a Level 1 tester.

The fourth day is an examination day

#### Who Should Attend:

Any personnel interested in using Thermal Imaging to reduce energy consumption, improve condition monitoring of assets and determine energy loss from mechanical, electrical, process and buildings assets.

### ATT Training Dates:

- **October 2016**  
(Monday 03rd - Thursday 06th)

**Course Fee: €1,495 + VAT**  
Fee includes lunch

### Trainer's Profile:

Our trainer is a Certified Level 3 thermographer with over 30 years' experience in the industry. He is recognised as an expert in Ireland in the field of Building Thermography.

He is also a qualified Electrical thermographer and has delivered regular in-house training to companies involved in Facilities Management.

For the past 5 years, he has been delivering training in both thermography and air tightness testing in Ireland.
